31 January 2007

Dear Mr Crooks,

At the last meeting of the St Andrew's PCC one of the Church Wardens, David Vose, informed us of the progress that had been made over the last year in respect of the plans for looking after the fabric of the Church. As a representative of The Parochial Church Council, I am writing to offer my thanks to you for the work you have undertaken recently to keep us heading down the right track to protect the building for the long term. However the achievement for which we are all most grateful is in providing a framework to move forward with the North Aisle roof.

The constraints of working along with English Heritage and the complexities of dealing with a building of such an age have become apparent to me over the last couple of years; your guidance in bringing us to the point where we have a sensible approach from a recognised firm, and realistic budget, is greatly appreciated. The PCC has approved taking the work forward subject to endorsement of the selected contractors by English Heritage.

Please accept my sincere thanks and those of the Church Council and our (belated) best wishes for a Happy New Year in 2007.

Yours sincerely

N C Kirkwood

Chairman, St Andrew's PCC
